PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2 years of hands-on experience designing, developing, and deploying scalable software solutions. Proficient in Java, Python, PostgreSQL, C++, and .NET frameworks. Demonstrated ability to collaborate in agile environments, contribute to full-stack projects, and deliver clean, maintainable code aligned with business objectives.

TECHNICAL SKILLS

Languages:	Java, Python, C++, C#
Frameworks:	.NET / ASP.NET Core, Spring Boot, Django
Databases:	PostgreSQL (PSQL), MySQL, SQLite
Tools & DevOps:	Git, GitHub, Docker, Visual Studio, IntelliJ IDEA, VS Code
Concepts:	OOP, RESTful APIs, MVC Architecture, Agile/Scrum, Unit Testing

WORK EXPERIENCE

Software Engineer

Jan 2023 – Present

TechSoft Innovations Pvt. Ltd. | Kathmandu, Nepal

- Developed and maintained RESTful APIs using Java Spring Boot, reducing average response time by 30%.
- Designed and optimised PostgreSQL database schemas for a client management system serving 10,000+ records.
- Built internal automation scripts in Python to streamline reporting workflows, saving 5+ hours per week.
- Collaborated with cross-functional teams in Agile sprints, consistently delivering features within deadlines.
- Conducted code reviews and contributed to documentation, improving onboarding time for new team members.

Junior Software Developer

Jul 2022 – Dec 2022

ByteNest Solutions | Lalitpur, Nepal

- Assisted in developing a web-based inventory management module using ASP.NET Core and PostgreSQL.
- Wrote and optimised SQL queries to generate business intelligence reports used by senior management.
- Implemented unit tests in C# using NUnit, increasing code coverage from 45% to 78%.
- Participated in daily stand-ups and sprint reviews, presenting progress to stakeholders.

EDUCATION

Bachelor of Science in Computer Science

2018 – 2022

Tribhuvan University | Kathmandu, Nepal

- Graduated with First Division (CGPA: 3.6 / 4.0).

- Final year project: Real-time bus tracking system using Python, PostgreSQL, and REST APIs.

KEY PROJECTS

Employee Management System

- Built a full-stack HR management application using Java Spring Boot (backend) and PostgreSQL (database).
- Implemented JWT authentication, role-based access control, and audit logging for compliance.

E-Commerce Inventory Tracker

- Developed a C++ and Python-based inventory tracking tool integrated with a PostgreSQL data store.
- Reduced stock discrepancy reporting time by 40% through automated reconciliation scripts.

Task Automation Suite (.NET)

- Created a suite of background services using ASP.NET Core Worker Services to automate nightly data sync tasks.
- Integrated with third-party REST APIs to pull data, process it, and store results in PostgreSQL.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft, 2023
- Python for Everybody Specialisation — Coursera / University of Michigan, 2022
- Java Programming and Software Engineering Fundamentals — Coursera / Duke University, 2021

LANGUAGES

- Nepali — Native
- English — Professional Working Proficiency
- Hindi — Conversational
